

# *Jurisk!*

A publication of Bar Council Risk Management Committee

DECEMBER  
2023

Vol. **18**  
Issue 1

Dear Members,

## ***Jurisk!* December 2023 | Legal Practice Management and Maritime Law**

In this issue ... *Jurisk!* returns with a fresh design and focused curation of articles on legal practice management and maritime law.

Under our section on Legal Practice Management, several articles are featured to bring you insights on how to plan for your law practice, how a clear and mature organisational structure should look like in a law firm, and what are the necessary steps one should take in the event you wish to close your law firm.

For our section on Maritime Law, gain knowledge on what it takes to be a maritime law practitioner and the key points when drafting a ship sale agreement and shipbuilding contract.

The newsletter also includes other articles on the following topics:

- Discussing legal fees;
- Handling client accounts;
- Importance of a contingency plan; and
- Best practices to help eradicate harassment at the workplace.

This issue will also feature information on the Risk Management Initiative launched by the Malaysian Bar. The initiative aims to reduce Professional Indemnity Insurance ("PII") claims with an emphasis on enhancing effective risk management within the legal profession.
